

## CHILDREN COMPOSITION COURSE

for children from 7 years, who already play an instrument

objective : composing to cultivate creativity and knowledge

Composing your own music is much more engaging and stimulating than performing that of others – especially as children.

BUILDING melodies, accompaniments and small scores to perform with your companions is extraordinarily constructive and important to help them conceive music as a language with which to express and share their ideas, emotions, feelings.

As in a BUILDING GAME, the teacher guides the young musicians to disassemble and reassemble the bricks of language, in an exciting practical journey to discover the rules of music, giving them the most IN-DEPTH KNOWLEDGE.

Children WILL KNOW HOW TO ANALYZE and recognize the elements of music, PLAYING MORE CONSCIOUSLY and MORE CREATIVELY their own instrument and their favorite pieces.

They will learn to RECOGNIZE by ear and to play a tune, which they will be able to elaborate and vary, to build their own personal interpretation.

The course is structured in 4 levels, with a two-year course, with 30 annual group lessons of 60 minutes (15 per semester) + 16 individual lessons of 30 minutes (8 per semester), on a weekly basis. It is subject to periodic review and allows access to individual advanced courses. Request the course calendar from the contacts listed below
