

JUNIOR STEP FUNDAMENTAL COURSE

for children aged 6 and 8

objective : complete musical journey

Designed to learn in the most complete way, playing the keyboard.

Children experience music through ALL MUSICAL EXPERIENCES: they learn to listen, developing creativity, associating sound with appropriate images; they internalize language with the help of movement and singing; they play what they have experienced by listening and singing, to then recognize, write and read the lived music; understand the importance of teamwork, PLAYING TOGETHER FROM THE FIRST LESSON.

Collective learning in small groups is really effective, because it is dynamic, pleasant and at the same time allows the teacher to carefully take care of the most correct approach to the instrument and the individual needs of each student.

THE COMPLETENESS OF THE EXPERIENCES HELPS TO MATURE THE CONSCIOUS CHOICE OF THE INSTRUMENT.

The course includes 4 main subjects:

SONGS WITH WORDS

to develop expressiveness through the voice,

MEMORIZED SOLFEGE

to sing with the notes and live the fundamental rules of music with the voice,

SONGS ON THE KEYBOARD

to consolidate learning by learning to play,

the WRITING and READING EXERCISES

to learn how to read and write music in a fun and effective way.

The course is structured in 2 levels, with an annual development, with 30 annual collective lessons (15 per semester), of 60 minutes each, on a weekly basis. Request the course calendar from the contacts listed below.
